

LIZMONTAGENS INDIA

ONE WORLD

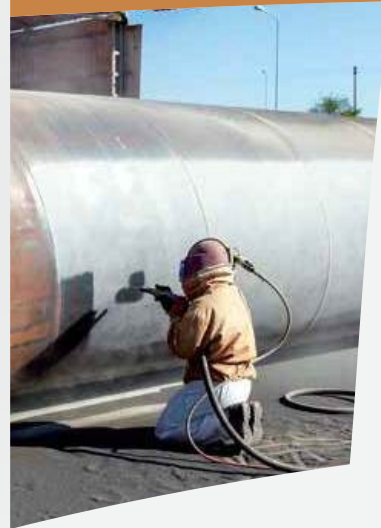

ONE COMPANY

ONE SOLUTION

A Subsidiary of

Elevating Excellence By Setting Standards For Top Quality Services

- 🔥 Deliver the **HIGHEST QUALITY** in Refractory Installation Services with Precision and Reliability
- 🔥 Continuously **ENHANCE EMPLOYEE SKILLS** through Training and Development Programs
- 🔥 Adopt **STATE-OF-THE-ART** Construction Technologies to drive Innovation and Efficiency
- 🔥 Ensure **HEALTH AND SAFETY** of all stakeholders through strict Compliance and Proactive Measures
- 🔥 Strive to be the **MOST ADMIRED ORGANIZATION** by Creating Value for Customers, Partners and Communities

Lizmontagens Thermal Technologies (LTT) Group

Founded in 1978 | Headquartered in Portugal | 37 Companies Worldwide

Over four decades, the **LTT Group** has transformed from a regional expert into a **Global Industrial Leader**, delivering advanced thermal and refractory solutions across continents. With a presence spanning **Europe, Asia, the Middle East, Africa, Australia and the Americas**, LTT continues to set industry benchmarks in Innovation, Reliability and Execution.

Core Focus Areas:

- 🔥 Turnkey Refractory Solutions for all types of Industrial Furnaces
- 🔥 Specialized in Float Glass & Container Glass Furnaces
- 🔥 Waste to Energy Turnkey Solutions
- 🔥 Industrial Chimney Construction, Inspection & Maintenance Services
- 🔥 Hot Repair Services for Iron & Steel / Glass industry

Lizmontagens India Private Limited (LIPL)

Established in 2010 | Head Office – Mumbai | Serving India, Middle East & Southeast Asia

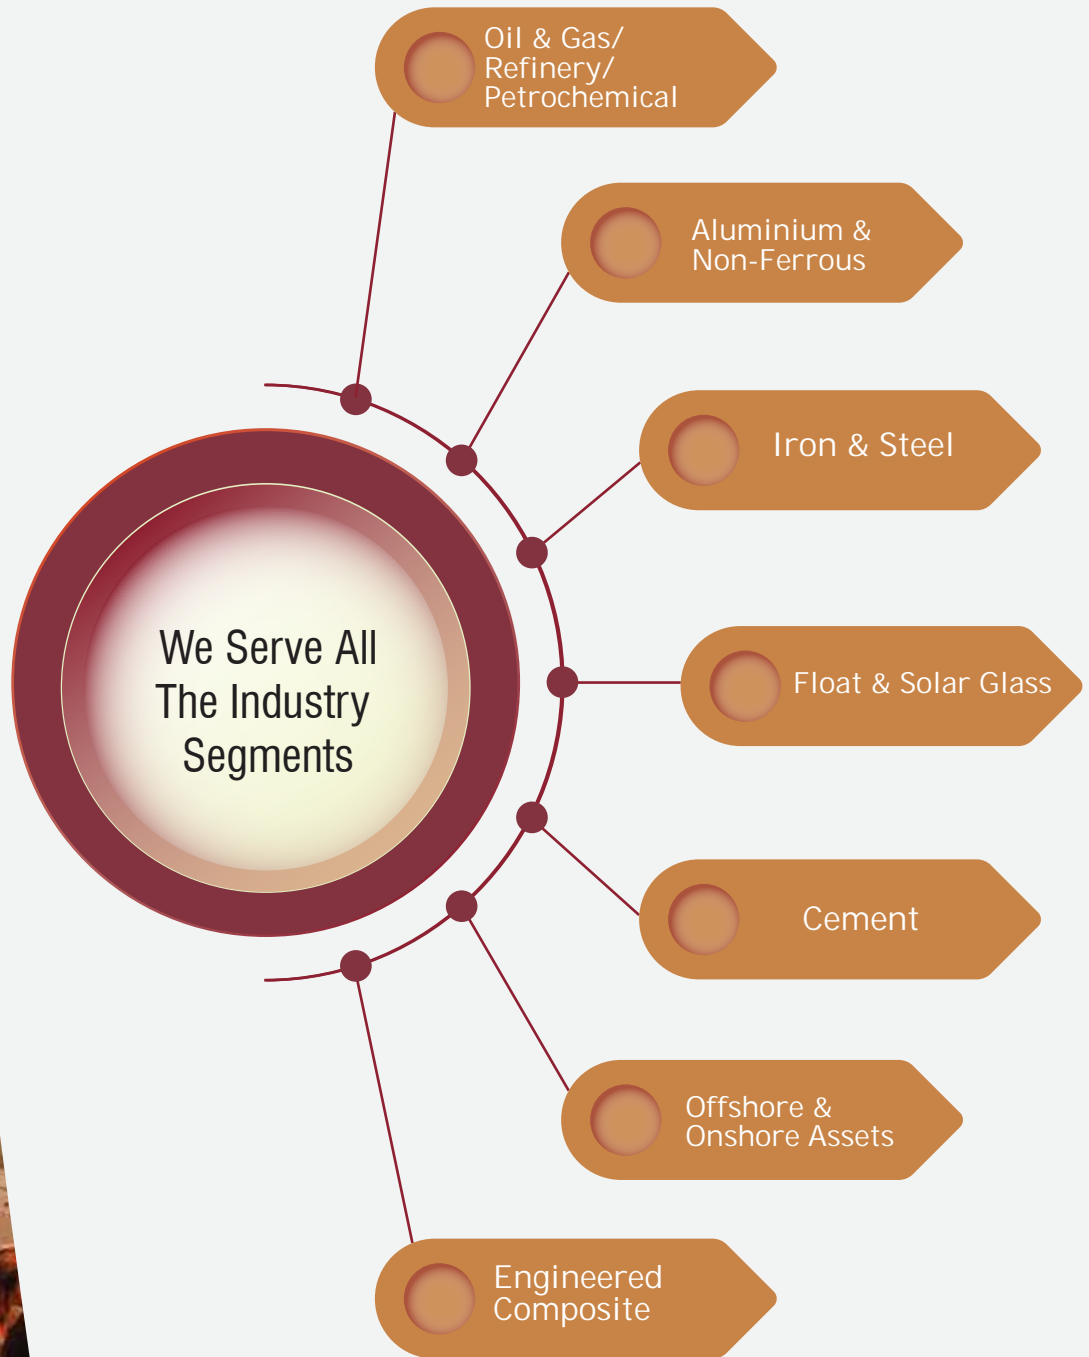

Lizmontagens India Private Limited (LIPL) is a fully owned subsidiary of Lizmontagens Thermal Technologies (LTT) and caters following services to a diverse range of Industries.

Our Service Portfolio Includes:

- 🔥 **EPC Turnkey Refractory Services** for Oil & Gas / Refinery / Petrochemical / Fertilizer Industries
- 🔥 Refractory Services and **Specialized Plant Operation & Maintenance Contract** for Aluminium Smelter and Iron & Steel Industry and building capabilities for O&M in Float & Solar Glass
- 🔥 **Complete Project Management & Execution** for Solar & Float Glass Plants
- 🔥 **Smart Hot Repairs** for Iron & Steel and Glass Industries
- 🔥 **Advanced Composite Repair Solutions** for Offshore Platforms & Onshore Pipelines and Other Assets in the Hydrocarbon & Municipal Sector
- 🔥 Nano Based **Anti-Corrosive Coatings** and with **Diver / Diverless Robotic Subsea / Underwater** Pipeline Integrity & Management

We strive to consistently deliver **TOP-QUALITY SERVICES** adhering to the **HIGHEST SAFETY STANDARDS**, while maintaining **STRICT PROJECT TIMELINES** — ensuring Operational Excellence across every engagement.

PURPOSE

We enable people's Growth by inculcating a Passion For Excellence

VISION

To be the most preferred partner across all industry segments by creating value for Customers, Employees, Community and Shareholders

MISSION

We are in the business of providing a great working experience by leveraging a strong Leadership Culture, Robust Learning & Development, Environment and Technology to constantly elevate service standards for our Customers

VALUES

SAFETY

TEAM WORK

Areas of Expertise

OIL & GAS / REFINERY / PETROCHEMICAL

EPC Turnkey Refractory Solutions encompassing detailed Design & Engineering for critical units such as Hydrogen Reformer, Ethylene Crackers, Secondary Reformer & Transfer Lines, Fluid Catalytic Cracking Unit (FCCU), Sulphur Recovery Unit (SRU), and Pet- coke Gasification Units.

PRIMARY ALUMINIUM & NON-FERROUS

Recognized as a market leader in India's Aluminium Industry, with an established presence across **5 out of the 7 Aluminium Smelters** in India, delivering Refractory Project and Maintenance Services.

LIPL holds complete expertise in end-to-end **Operation & Maintenance (O&M)** Contracts, specifically catering to Pot Room and Carbon Plant facilities — including Green Anode Plants, Anode Baking Furnaces, and Rodding Shops — ensuring reliable, efficient, and sustainable operations.

IRON & STEEL:

Specialist in all critical units **Refractory Linings** for Blast Furnace & Stoves, Reheating Furnace, Coke Dry Quenching (CDQ), Pellet Plant, Lime Calcination Plant, Sub-merged Arc Furnace.

Comprehensive Coke Oven Battery Maintenance: Specialized services covering Flue Wall Rebuild, Through Wall Rebuild, and complete Battery Reconditioning to ensure optimum performance and extended asset life.

Smart Hot Repair Services: Salamander Tapping, Power Injection (Pressure Grouting) with Thermography, Endoscopy Services

FLOAT & SOLAR GLASS PLANT

End-to-End solutions for the entire Glass Plant setup — from Batch House, Furnace, and Forehearth to Annealing Lehr. Our services include Fabrication, Erection, and complete Commissioning Assistance, ensuring seamless integration with optimal Project schedule.

Specialized Maintenance & Repair Services:

- Expertise in both Cold and Hot Repairs for Glass Furnaces
- Advanced Endoscopy Services for internal inspection and Preventive Maintenance
- Hot Sealing of Glass Drains to minimize downtime and maintain Operational Efficiency
- Controlled Demolition and Full-Scale Rebuild of Glass Furnaces

ENGINEERED COMPOSITE REPAIR SOLUTIONS

Industry leader since 2012, we specialize in the rehabilitation and restoration of corroded assets across **Offshore Platforms & Pipelines, Hydrocarbon Industry, Cross Country Pipelines, Municipal Corporation & other Process Industries**. Our services encompass complete solutions, including detailed Structural Health Assessment, Integrity Evaluation, Corrosion Mapping, and implementation of customized repair strategies. We offer innovative and sustainable asset integrity management solutions aimed at extending the service life of critical offshore infrastructure ensuring operational efficiency.

In India, we hold a distinct Leadership position as the only Contracting Company actively catering to all major Industrial Sectors — including Oil & Gas, Refineries, Petrochemicals, Iron & Steel, Primary Aluminium & Non-Ferrous Metals, Solar & Float Glass, Cement, and Fertilizer Industries.

EXTENSIVE TECHNICAL WORKFORCE

Backed by a robust team of 7,500+ experienced personal, engineers and technicians across disciplines.

AGILE AND COMMITTED TEAMS

Dedicated & Specialized Construction Teams equipped to handle fast-track Greenfield Projects, Annual Turnarounds and Operation & Maintenance Contracts with efficiency and flexibility.

CONTINUOUS DEVELOPMENT PROGRAM

Focused on continuous Growth through structured Leadership Development, Skills Enhancement and Transformational coaching aligned with evolving Industry needs.

ADAPTING GLOBAL BEST PRACTICES LOCALLY

We leverage global expertise from our International Group Companies, embedding these practices into our organizational culture for sustained excellence.
